<https://www.linkedin.com/in/kyaw-min-thu-087692338/> | <https://github.com/MinThu63>

Detail-oriented Year 3 Financial Technology student at Republic Polytechnic with hands-on experience in full-stack development, data analytics, and FinTech applications.

Proficient in Python, React, and SQL, with a proven ability to build innovative, data-driven solutions for the banking sector.

Driven to leverage my technical expertise and strong communication skills in a hands-on internship to drive digital transformation and team success.

### Education

|                                 |                      |                |
|---------------------------------|----------------------|----------------|
| Diploma in Financial Technology | Republic Polytechnic | 2024 - Current |
|---------------------------------|----------------------|----------------|

---

### Skills

#### TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, HTML, CSS, Node.js, Express.js, MySQL, Solidity
- Software Proficiency: Microsoft Word, Excel, PowerPoint, Project, SAP, Power BI, Tableau
- Fintech: RegTech, Payment APIs, Compliance, Blockchain
- Others: IT Project Management, Agile methodology, database administration, applications development and integration, software design and testing, Basic understanding of risk management and security protocols

#### SOFT SKILLS

- Creative and analytical thinking
- Team collaboration
- Adaptability and resourcefulness
- Communication skills
- Problem solving
- Customer orientation

---

### Achievements & Awards

- |                                                                                |                             |
|--------------------------------------------------------------------------------|-----------------------------|
| • <b>Director's Roll of Honour (AY2024 Semester 2 &amp; AY2025 Semester 1)</b> | Republic Polytechnic        |
| • <b>Module Prize (Distributed Ledger Technologies)</b>                        | Republic Polytechnic AY2025 |

---

### Projects

- **Automated Regulatory Monitoring System and Compliance Management System (Final Year Project)**  
Leading a team to develop a full-stack compliance platform for a MAS-licensed digital bank.
- **Transaction Analysis & Fraud Detection Dashboard**  
Developed a full-stack fraud detection dashboard using React and FastAPI with data analytics, risk scoring, and fraud monitoring features. <https://github.com/MinThu63/Transaction-Analysis-Fraud-Detection>
- **Credit Risk Scoring ML Pipeline**

Built a machine learning pipeline using Python and MySQL to assess loan applicant risk through predictive modelling and data-driven analysis. <https://github.com/MinThu63/Credit-Risk-Scoring-ML>

## Volunteer and Leadership Experience

---

- **Ground Deployment Exercise (GDX) 2026** 15 May – 04 Jun 2026  
Collaborating with the SPF and SCDF in a large-scale campus emergency exercise, encompassing responder training, technical rehearsals, and a live deployment
- **Video Editing Prototyper (Volunteer) Greenwood Primary School** AY2025  
Trained primary school students in CapCut video editing, equipping them with the technical skills to produce and refine multimedia presentations for their project work
- **Be Cyber Safe Workshop for Seniors at Fernvale Community Club** AY2026  
Taught elderly residents how to identify and avoid online scams, guiding them through practical digital safety exercises in a community setting.

## Competition

---

- **iDARE Entrepreneurial Challenge 2026** AY2026
- **Skills Ignition SG AI Challenge 2026 — IMDA & Google** Ongoing  
Building an AI Strategy Blueprint for a real-world business problem using Google Gemini and NotebookLM. Competing for Top 50 selection and cash prizes up to \$5,000.
- **Whitehacks 2026 — Capture The Flag (CTF) — SMU Whitehat Society** Ongoing  
Participating in a cybersecurity competition covering Cryptography, Reverse Engineering, Web Exploitation, and Forensics, with preparatory training workshops conducted prior to the event.
- **RobotX Challenge 2026 — RSN & FSTD** Ongoing  
Designing and deploying autonomous maritime systems (USV + ROV) in a team of 3–4, competing against polytechnics and ITEs in a national robotics challenge.

## Work Experiences

---

- Restaurant Server (Part-Time)** EN Group ( Singapore ) May 2024 - Present
- Managed peak-hour service, averaging 2-minute table turnovers to minimize customer wait times.
  - Processed orders accurately and expedited food delivery.
  - Streamlined workflows with the team to elevate the overall customer experience.

## Languages

---

Burmese (Fluent)      English (Fluent)
